The Third Plate is a 2014 novel about cooking and its relationship to ecology by contemporary chef Dan Barber. In it, Barber argues for a new way of thinking about food that he believes will be the future of dining in America. Backgrounding his argument, he traces the evolution of American food starting with the main 'plates,' or conceptions of the meal, since the Industrial Revolution: the first was highly industrial and meat-heavy, due to factory farming; and the second involves more ...

Monica Eng reviews chef Dan Barber's "The Third Plate: Field Notes on the Future of Food," which ponders sustainability and ways to eat that will not threaten the environment.

[The Third Plate Quotes by Dan Barber - Goodreads](#)

If you've heard of Dan Barber's The Third Plate but haven't picked it up, now's a good time. The way to make western eating sustainable, according to Barber, is not just a matter of grass-fed or free-range! what we need is an overhaul of the ingredients and food types we choose. The third plate features second and third cuts, lesser shellfish, a larger variety of grains, and other unpopular or untapped items that present a manageable ecological burden. By encouraging ...
