In 1881 Eddy added a 46-page chapter on it, "Demonology", to Science and Health. From the 16th edition in 1886, when James Henry Wiggin became the book's editor, the chapter was reduced and renamed, and in the final edition is a seven-page chapter called "Animal Magnetism Unmasked". Eddy spoke openly about it, including to the press.

so the magnetism cancels out, but in iron—for a mysterious reason which we will discuss later—many of the electrons are spinning with their axes lined up, and that is the source of the magnetism. Since the fields of magnets are from currents, we do not have to add any extra term to Eqs. or to take care of magnets. We just take ...
