Cisco Systems (CSCO) has 9 splits in our CSCO split history database. The first split for CSCO took place on March 18, 1991. This was a 2 for 1 split, meaning for each share of CSCO owned pre-split, the shareholder now owned 2 shares. For example, a 1000 share position pre-split, became a 2000 share position following the split. CSCO's second split took place on March 23, 1992. This was a 2 ...

Urea is a nitrogenous compound containing a carbonyl group attached to two amine groups with osmotic diuretic activity. In vivo, urea is formed in the liver via the urea cycle from ammonia and is the final end product of protein metabolism. Administration of urea elevates blood plasma osmolality, resulting in enhanced flow of water from tissues, including the brain, cerebrospinal fluid and eye ...
